Children's Concert

DELIGHTS YOUNG PEOPLE

Captivating an audience of more than 450 music lovers of all ages, members of a Mattapoisett family, who prefer to remain anonymous, pranced in the aisles of the Gilbert D. Bristol Auditorium at Old Rochester Regional High School in bear costumes to the music of "The Teddy Bear's Picnic" and to the delight of the happy youngsters.

Sponsored by the Tri-County Music Association, Inc., the free Children's Concert by the Regional Symphonic Band included several "highlights", not the least of which was an exhibit of exquisite nature slides presented by Mrs. Donald Edwards of Westport while the Band played a sensitive rendition of "Autumn Leaves". Mrs. Edwards' selection of pictures of small woodland animals, birds, flowers and fall foliage was received with great enthusiasm by the

O.R.R. Wins Start

New Bedford Vocational High School rocked Old Rochester Regional in the opening moments of their contest on Saturday by jumping off to a six point lead. After the kick-off, the Bulldogs were unable to move the ball and were forced to punt. The snap from center sailed 6 feet over the head of the punter, Paul Soares, who ran back and grabbed the ball and tried to run with it but was tackled near the goal line. Voke's Carte scored on the first play on an end run to right side. The rush for the conversion failed. The two teams then settled into a seesaw battle in which defense was the key factor. Neither team was able to sustain a successful drive until the beginning of the third period. Paul Bouchard took an OR kick-off for a thrill packed ride to the OR 17. Voke drove to a first down on the 7. Three plays advanced the ball to the 1 and then Carter fumbled the ball

which OR recovered on their own 4. The Bulldogs then put on the best offensive drive of the day. Quarterback Joe Bettencourt carried for 2/3 of the distance as he advanced his team 96 yards. Bettencourt scored on a final 16-yard run. The rush through center for the points after failed.

Voke was unable to move against the strong defense of the Bulldogs and the punt was taken on the OR 40. The OR team went for 22 yards before fumbling. Voke was again unable to move and OR received a punt on the Voke 38. The Bulldogs again advanced, this time via two long passes, to help. Don Neilson received a 17-yard pass and Paul Reilly a 32-yard pass. Reilly picked up two yards from the six and Bettencourt ran over for the score. The points after rush again failed. With 50 seconds to go and a 6 point lead, OR tried an onside kick, recovered the ball and held on for the final 50 seconds.

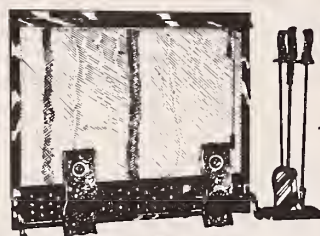

Outstanding defensive play by the Old Rochester team was the big feature of the day. Voke was unable to move consistently through the Bulldog line. "Whitey" Wordell was outstanding on defense. Offensive punch was provided mostly by Quarterback Bettencourt who ran well and completed 5 of 9 passes for 82 yards.

View of Indian Cove

Editorial

Concern for our natural land and shore is a healthy and hopeful trend that is gathering power. What we have, we must guard or suffer irrevocable loss. The ideal would be to stop all development and preserve all natural wild land and shore as it stands. This ideal, unfortunately, fails to allow for a population growth which is not stable but expanding at a runaway rate. Until such time as people are ready to recognize that population is the key to the preservation of the air, land and water around us, then communities have to be realistic. Development of land for homes can't stop because the pressure is too great.

If development is inevitable, and a realist must face the fact, then it is possible to exercise control. It is desirable to be selective as to the type of development that will do the least harm to nature and preserve the most ecologically important areas. The proposed development of Indian Cove is a current example. This development is planned to surround a huge tract of marsh which the plan designates a preserved area, designated "Conservation

Trust Land".

The house lots are far larger than the minimum required in the towns of Marion and Mattapoisett. Open areas of land are planned in sections of the plan which will break up the house plots. A beach is planned for this development and a channel for outboard craft and skiffs, 4 foot in depth and 30 feet wide, is also in the plan. Opposition has sprung up because of this channel. Those who oppose this channel do so from the purest of motives; however, it might be well to take another look. There is a precedent. Years ago, a similar channel was dredged into the boatyard which is part of this property. No drastic effect on the ecology was ever noted. The proposed

channel will lead into a beach which will be used by all of the families of the Indian Cove development. Just simple self-interest requires that the developer will use the greatest care to avoid spoiling or polluting this area which is their greatest asset. Those who have registered in opposition should take the time required to investigate the whole plan of Indian Cove which is based upon, and built around, the concept of surrounding a group of homes with natural marsh areas of beauty. It appears to be

This sort of development may well generate support and encouragement. As far as I am concerned, I feel that this development is of the kind that should be an example for the future of what can be done to preserve natural land while furnishing the necessary living space required by people.

People are enthused about the Band as never before; the Band is playing as it never has before and the conductor is conducting like he has the Boston Pops responding to his magical baton.

More and more individuals and businesses in the surrounding communities are responding enthusiastically to the appeal by the directors of the Association for patrons, sponsors and season tickets holders to help the Regional Symphonic Band maintain and enlarge its repertoire and reputation as one of the finest cultural enterprises in the area for everyone. Almost every dollar of financial help the Band receives is returned to the contributors in the excellent concerts and outstanding soloists they present and in the scholarships they award each year to high school seniors and former graduates who pursue their education in the music field.

A group of spectacular soloists and events are scheduled for the coming season that opens on October 31.

The opportunity and tremendous personal satisfaction of supporting this super-fine musical organization is yours during the current campaign for patrons and sponsors. Won't you help?

Room of the Congregational Parish House. Two discussion groups have been planned. One, under the leadership of Mr. Wood, will emphasize the coming to grips with our confessions of faith, their relevance or lack of it to our modern day, and their Biblical foundations.

The other discussion group, under the guidance of Mr. Finley, will be aimed at increasing one's awareness of the inescapable effect of modern life upon our values, for good or ill, and the creative ways of spiritual enrichment that are within the contemporary changes.

The initial meeting on October 14th will be an exploration of the personal interests and needs of those attending, in order to shape the content of the courses within these two broad areas. This adult discussion series is open to all. New ways of looking at our world have come into existence. These courses will explore the equally new options for our times. Come and join in the growth!
